Introduction 1

PART 1. THEORIES AND FALSIFICATION

1. The Logic of Falsification 7
2. The Limits of Falsification 26
3. Are There Crucial Experiments? 37
4. Falsification and the Method of Difference 52

PART 2. THE REJECTION OF THEORIES

5. Popper's Methodological Falsificationism 63
6. Responses to *Prima Facie* Falsifying Evidence 66

PART 3. THE REPLACEMENT OF THEORIES

7. Whewell on Scientific Progress 83
8. Kuhn on Theory Replacement 90
9. Lakatos on Progressive Research Programs 102
10. The Asymptotic Agreement of Calculations 125

PART 4. THE ACCEPTABILITY OF THEORIES

11. Successful Prediction and the Acceptability of Theories 135
12. Variety within Evidence 155
13. Other Factors in Theory Evaluation 167

Conclusion 189
